

The Quickest & Easiest Flooring System You'll Ever Build!

BECAUSE WE'VE DONE THE THINKING FOR YOU!

Instead of the old way, waiting till product turned up onsite to start measuring, marking and cutting of bearers & joists. Spantec Smartbearers are printed with joist and bracket details as well as pre-punched bracket location holes ready for assembly.

Spantec's done the hard work for you!

This massive step forward in speeding up construction and saving you costs is due to Spantec's CAD technology and automated manufacturing.

Your floor is designed to your requirements and delivered as a complete kit including:

- Pre-punched & printed perimeter bearers
- Bearers & joists marked to match drawings
- Bearers & joists cut to length
- Detailed working drawings
- Brackets
- Screws
- Ezi-brace
- Ezi-pier adjustable piers

BOXSPAN®
